

CVS Specialty[®] 
Specialty medications
with personalized support

CVS Specialty makes it easier to manage your medications and connects you with a care team that has expertise in your condition.

How your specialty medicine is covered

Your pharmacy plan covers some drugs, and your medical plan covers others. Depending on your plan, you may need to pay a copayment or coinsurance. And certain drugs require precertification. This just means you need approval from the plan before they'll be covered.

Talk with your provider or call us at the number on the back of your member ID card with any questions about your prescriptions or medications.

Delivering medication and more to over 1.5 million members*
