 - Below-grade facility, total amount of linear feet: _____
- Wireless Facility
 - Small wireless facility, total number of facilities: _____
**max. 30 facilities per application for collocation on existing structures*
**max. one facility per application if a new utility pole is proposed to support the facility*
 - Micro wireless facility, total number of facilities: _____
- Other: _____

Does the Registrant pay Communications Services Tax as authorized by Chapter 202, Florida Statutes? Yes No
*If yes, provide a copy of the Communications Services Tax Certificate of Registration (Dept. of Rev. form DR-700014).

It is estimated that the completion of this project requires:

_____ Linear Feet of Unpaved Right-of-Way to be Utilized
_____ Square Footage of Pavement Disturbed or Removed

Checklist for required documents:

- Engineering plans, including:
 - Dimensions, height, footprint, stealth design, and concealment features.
 - Location of the proposed facility.
 - For a small wireless facility, the type of structure intended to support said facility, such as an existing structure, repurposed structure, or a new utility pole intended to support the collocation of the small wireless facility.
Note: If a new utility pole is required, Applicant must also submit a Right-of-Way Utility Pole Permit Application.
 - Documentation that the support structure is capable of supporting the proposed small wireless facility.
 - Pole attachment agreement, if applicable.
 - Distances between the proposed facility and nearby pavement, sidewalks, underground and overhead utilities, and other structures/facilities located within the rights-of-way depicted on photographs and plans.
 - For a small wireless facility, the GPS coordinates (based on the reading from a handheld mobile GPS unit set to Datum NAD 83 or WGS84, to a six (6) decimal point precision).
 - An attestation that the proposed communications facility will be located within the right-of-way.
 - Identification of all trees and landscaping to be removed or impacted.
 - A Certificate of Liability Insurance (COI) needs to be submitted with each Small Cell Pole & Facility application showing: Lee County Board of County Commissioners, PO Box 398, Ft. Myers, FL. 33902 (Listed as the certificate holder) & Lee County Board of County Commissioners (a political subdivision and Charter County of the State of Florida, its agents, employees, and public officials are Named as Additional Insured on a primary and non contributory basis and includes ongoing and completed operations for General Liability only per CGL084 1013 when required by written contract, Waiver of Subrogation per form CGL088 0115). Listed as- "Additionally Insured" in the description. With all coverage's on the policy, no less than \$1,000,000.00
- Description of installation or construction and timetable for construction.
- Temporary Maintenance of Traffic (MOT) Plan.
- Temporary sidewalk closure plan.
- Estimated costs to restore the ROW and the restoration plan.

- Proof of insurance, if not already on file with the County, including:
 - Workers' Compensation and employer's liability insurance;
 - Comprehensive general liability;
 - Commercial automobile liability; and
 - Commercial excess or umbrella liability, if applicable.
- Performance Bond in an amount equal to 110% of total project cost or \$5,000.00, whichever is greater

This permit application package must be submitted to Lee County by certified mail or hand-delivery, and include one (1) copy of this permit application, with one (1) set of the physically signed and sealed engineering documents, including the plans and drawings, and one (1) USB flash drive with scanned copies of all application materials.

NOTICE:

1. Applicant must be registered with Lee County prior to receiving a permit.
2. The engineering plans for a proposed small wireless facility must be signed and sealed by a Florida licensed professional engineer.
3. The construction and maintenance of the communications facility shall not interfere with the rights of other licensed utility providers and permit holders utilizing County rights-of-way.
4. The normal working hours for repair, maintenance, or construction work is _____
5. All work shall meet the applicable Lee County standards.
6. Lee County D.O.T. must be notified at least forty-eight (48) hours prior to the start of any construction associated with this application.

By execution and submission of this Permit Application, Applicant is bound to the County with respect to the indemnification provisions set forth in Section 6-613, Lee County Land Development Code.

By submitting an application, Applicant acknowledges that it has reviewed a copy of Chapter 6, Article VII of the Lee County Land Development Code.
