7. BACKGROUND:

The County's existing ETC readers and antennas are aging, and acquiring parts for needed maintenance is becoming problematic. Also, while it is possible to integrate the existing readers and antennas with the State's SunPass system, the 3110 readers and antennas have capabilities that will facilitate the process.

TransCore has been providing services to the County toll system. They have provided the necessary hardware and software to operate the Electronic Toll Collection (ETC) and Variable Pricing system for the Cape Coral and Midpoint Bridges, and the Sanibel Causeway. TransCore also provides these services to the Florida Department of Transportation for the Department's SunPass program. Due to the proprietary nature of the ETC software, and the need for interaction between the software and hardware, it is in the best interests of the County to purchase this equipment and have it installed directly through TransCore. County staff has evaluated pricing of equipment at other toll facilities and determined that the TransCore sole-source quote is competitive.

Should the COUNTY object or take exception to the amount of any PROVIDER'S invoice statement, the COUNTY shall notify the PROVIDER of such objection or exception with the thirty (30)calendar day payment period set forth hereinbefore. If such objection or exception remains unresolved at the end of said thirty (30) calendar day period, the COUNTY shall withhold the disputed amount and make payment to the PROVIDER of the amount not in dispute. Payment of any disputed amount will be resolved by the mutual agreement of the parties to this Agreement.

4.4 PAYMENT WHEN SERVICES ARE TERMINATED AT THE CONVENIENCE OF THE COUNTY. In the event of termination of this Agreement at the convenience of the COUNTY, the COUNTY shall compensate the PROVIDER for: (1) all services performed prior to the effective date of termination; (2) reimbursable expenses then due; and (3) reasonable expenses incurred by the PROVIDER in affecting the termination of services and work, and incurred by the submittal to the COUNTY of any documents.

ARTICLE 5.0 - TIME AND SCHEDULE OF PERFORMANCE

5.01 NOTICE TO PROCEED. Following the execution of this Agreement by both parties, and after the PROVIDER has complied with the insurance requirements set forth hereinafter, the COUNTY shall issue the PROVIDER a WRITTEN NOTICE TO PROCEED. Following the issuance of such NOTICE TO PROCEED the PROVIDER shall be authorized to commence work and the PROVIDER thereafter shall commence work promptly and shall carry on all such services and work as may be required in a timely and diligent manner to completion.

The PROVIDER shall be required as a condition of this Agreement to prepare and submit to the COUNTY, on a monthly basis, commencing with the issuance of the NOTICE TO PROCEED, a PROVIDER'S WORK SCHEDULE. The WORK SCHEDULE shall set forth the time and manpower scheduled for all of the various phases and/or tasks required to provide, perform and complete all of the services and work required for completion of the various phases and/or tasks of the project services set forth and described in this Agreement, as set forth in EXHIBIT "C", pursuant to this Agreement in such a manner that the PROVIDER'S planned and actual work progress can be readily determined. The PROVIDER'S WORK SCHEDULE of

planned and actual work progress shall be updated and submitted by the PROVIDER to the COUNTY on a monthly basis.

5.04 FAILURE TO PERFORM IN A TIMELY MANNER. Should the PROVIDER fail to commence, provide, perform, and/or complete any of the services and work required pursuant to this Agreement in a timely and diligent manner, the COUNTY may consider such failure as justifiable cause to terminate this Agreement. As an alternative to termination, the COUNTY at its option may, upon written notice to the PROVIDER, withhold any or all payments due and owing to the PROVIDER, not to exceed the amount of the compensation for the work in dispute, until such time as the PROVIDER resumes performance of his obligations in such a manner as to get back on schedule in accordance with the time and schedule of performance requirements as set forth in this Agreement.

Should PROVIDER authorize another person, with the COUNTY'S prior written

consent, to provide services to the COUNTY hereunder, PROVIDER shall obtain from such person a written agreement pursuant to which such person shall, with respect to the services which he is authorized to provide, undertake for himself the obligations contained in this Section.

Dear Carol:

TransCore is pleased to provide the following quote for \$415,286 (see detail pricing below) to upgrade Lee County's ETC system for SunPass compatibility. This quote replaces the earlier quote dated March 11, 2003 and covers the associated hardware, software modifications, testing, and installation tasks required to interface into the SunPass system. It's important to note, that while this provides the infrastructure for compatibility, the control and timing of SunPass interoperability will be under control of the Lee County.

1. Hardware

The Amtech 3110 multi-protocol reader system represents the new AVI hardware, and will replace the current Intellitag 2000 systems. The basic 3110 system includes an ISA reader card, RF module, 2 antennas, and a check tag antenna. It will support Lee County's current type 2 transponders, the write back feature needed for the SunPass type 3 transponders, and when properly configured will also allow the reading of TransCore's new eGO transponders.

2. Software

For SunPass interoperability, Lee County's Service Center system will require modification to the software processes listed below. Changes include:

TP – Transaction Processor – 16 hrs

Modifications are required to process multiple agencies, including FDOT, OOCEA, etc. For accounting purposes it is vital that other agencies' transactions be processed separately from Lee Way transactions.

FT – File Transfer – 42 hrs

Modification and testing are required to create and download LeeWay, FDOT, and OOCEA positive lists. The FT code is different from OOCEA, and requires significant modifications. Be advised that real time updates for tag balances will only work for Lee Way transponders. Tag status for FDOT and OOCEA are updated only on a nightly basis.

Database – 8 hr

Minor modifications are needed to the database to support the multiple agency concept.

Injector – 8 hr

The injector is a program to 'inject' Lee Way AVI transactions from OOCEA/FDOT lanes into the Lee Way database. Basically, these transactions are put into the TP's queue for processing, much like they might have come from a local lane controller.

Interoperability scripts-

The process of transmitting and receiving positive lists and plaza lists from other agencies has already been developed by the OOCEA and FDOT. Hopefully, the County can acquire these scripts as a base, and modify accordingly. The amount of changes should be minimal, and needs to be tailored by Lee County.

Plaza List decoder, Positive list decoder – 60 hr

New lanes and plazas are routinely added by all agencies. This program ensures that cooperating agencies are in lock step in terms of new plazas and or lanes added to the system.

System test and coordination – 80 hours

Thorough end to end testing is required to ensure all interfaces are working together.

Follow-on support – 120 hr

Additional support is needed to ensure the S/C software is running properly post installation (Service Center and Lane Controller). Given the maturity of the software, this support should be minimal.

However, due to the sensitivity and timeliness of the operational data, problems must be addressed as soon as possible.

Lane Controller FT, CM, test – 120 hr

The Lee County Lane Controller must be upgraded with the AV6 (write-back) driver, and modified to include new File Transfer code to allow for proper SunPass positive list download.

3. Installation

This quote also includes estimates for the 3110 installation at the existing Midpoint (14 lanes), Cape Coral (14 lanes), Sanibel facilities (3 lanes), and Lee Way Service Center (1 lane). Please be advised that the costs shown below are an introductory price, based in part on the ‘beta’ status of the 3100 system.

Cost Items:

1. Hardware	\$ 290,000
-Amtech 3110 Multiprocol readers, 35 @ \$8000 ea	
-Spare 3110 individual readers, 4 @ \$2500 ea	
-Spare Net-boxes 2 @ \$0	
2. Software	\$ 51,756
- Lane controller, 120 hours @ \$114/hr	
- Service Center, 334 hours @ \$114/hr	
3. Installation (see below for detail pricing)	\$ 50,080
4. Travel	\$ 6,650
- Mileage, 5 trips,400mi @ .325 = \$650	
- lodging, per dicm, 30 * \$100* (2 people) = \$6,000	
5. Project Management (140 hours @ \$120/hr)	<u>\$ 16,800</u>
 Total	 \$ 415,286

Notes:

- This quote is valid for 30 days, and replaces the earlier quote dated April 8, 2003.
- Installation costs are based upon using existing antenna mounts in their current location.
- If 3110 units are not received by October 31, 2003, and at the same time if Lee County’s Interoperability schedule is in jeopardy, TransCore will provide 2020 units at no charge until the 3110 units can be delivered.

Please call me directly with any questions.

Regards,

Robert A. Lapsley

Per lane estimate

Item numbers 1 and 2 apply to all lanes. Item number 3 applies only to Cape Coral and Sanibel lanes, where the lane controllers are located in the plaza building.

1. Labor tasks @ \$65/hr :	<u>Hours</u>	<u>Price</u>	\$ 1,170
▪ De-install, install Antennas, RF module	10	\$650	
▪ Install cables, terminate	4	\$260	
▪ Lane/Plaza tuning	2	\$130	
▪ Test / debug	2	\$130	

2. Material:	\$395

3. Netbox for 3110 operation (at Cape Coral, Sanibel)
The Netbox is a small networked computer containing an ISA slot for the 3110 reader card. This box is needed at the Cape Coral and Sanibel locations, because the lane controllers are located in the plaza building several hundred feet from the actual lanes. The Netbox must be located close to where the current IT2000 reader is currently located, and will communicate with the lane controller via ethernet.
