Agenda Item Summary**

Blue Sheet No. 20031072

1. REQUESTED MOTION:

ACTION REQUESTED: Deny appeal of an administrative interpretation of the Lee Plan under the single-family residence provision filed by Billie Adcock on behalf of Kathryn VanDeMortel.

WHY ACTION IS NECESSARY: To take action concerning an appeal of a denial for a favorable administrative determination of the Lee Plan under the single-family residence provision.

WHAT ACTION ACCOMPLISHES: The Board will uphold the determination that the property owner is entitled to construct one single-family residence on the subject parcel after sufficient access to the property is established in accordance with applicable County regulations.

7. BACKGROUND:
Billie Adcock has filed an appeal of MUD2003-00072 pertaining to property located at 6320 Allen Park Drive, Bokeelia. The appeal seeks relief from the County Attorney's denial of a favorable administrative interpretation under the Lee Plan single-family residence provisions. In August 2003, the Office of the County Attorney concluded that the subject property will be entitled to construct one single-family residence once sufficient access is provided to the subject property.

The subject parcel existed as a separate parcel in 1977 and prior to the adoption of the Lee Plan. It is located in the rural land use category and is comprised of approximately 19,161 square feet. Access to the parcel appears to be via private, unplatted roads.

In order to qualify for a favorable determination under the Lee Plan provisions, the parcel must: (1) encompass at least 7,500 square feet; and (2) front on a road constructed of compacted materials with adequate drainage. This parcel does not front on a road meeting the minimum Lee Plan standard. Therefore, a conditional determination was issued allowing construction of a single-family residence once the road fronting the parcel was brought up to the minimum standard.

As a basis for appeal, the applicant asserts that bringing the road access up to the required standard will create a hardship for the property owner. No compensable taking of the property occurs due to the property owner's financial inability to exercise the right to construct the single-family home as conditioned by the single-family determination.

The procedures for administrative interpretation govern the Board's consideration of the requested appeal. These guidelines are set forth in Chapter XIII of the Lee Plan and require the Board to consider only the information submitted in the administrative interpretation process. The Board must determine whether the County Attorney's Office has properly applied the criteria set forth in the plan to the facts presented in the application. No additional evidence may be considered by the Board.

The applicant has not demonstrated a factual basis for relief on the grounds of equitable estoppel. A single-family residence can be constructed on the parcel once the road fronting the property and providing access has been brought up to the appropriate standard.

The administrative interpretation being appealed correctly provides a favorable single-family residence determination with the condition that sufficient access be provided prior to issuance of a building permit for the dwelling. This determination is consistent with others issued by the County Attorney's office for similarly situated parcels.

Strap No.: 08-44-22-01-0000B.0080

Appeal:

We are requesting an appeal to your determination that is denying a permit to build a single family residence.

This situation will cause a hard ship to Kathryn A. VanDeMortel. She is a single parent and has used her savings to purchase above referenced parcel. She has also closed on a construction loan to construct a home for the family.

There are existing homes in this parcel and a new home under construction on across the street from said parcel in question.

We would like you to reconsider your determination in this case.

Respectfully,

MUD 2003-00072

My name is Kate Van De Mortel, I have purchased property at 6320 Allen Park Dr., Bokeelia, Florida. I am a single mom who purchased this property with the idea of building a home on it for me and my child. The builder that I chose, Signature Series Homes, Inc., has informed me that you have denied my application for a permit to build on this property. I had this land surveyed prior to buying it to make sure that it was a smart move. Now I am told that you will not let us have a permit.

Hanover is the main street that turns into my subdivision and it is being paved at this time. There are other homes being built in this subdivision. Photo provided of Manneheim Dr. where they are building a home, the property is underwater.

Please move quickly and promptly in this matter and approve my permit. Thank you for your prompt attention to this matter.

I look forward to any help you can give this matter.

QUESTION: 6320 Allen Park Drive, more particularly described as Lot B-8, of the unrecorded redivision of the N ½ of Lots 1 and 2, Block B, Kreamer's Avocados Subdivision, Section 8, Township 44 South, Range 22 East, Pine Island, Lee County, Florida. The East 127.5 feet of the West 1020.0 feet of the North half (N ½) of the North half (N ½) of Lots 1 and 2, Block B, Kreamer's Avocados Subdivision, according to plat recorded in Plat Book 5 at Page 21, of the Public Records of Lee County, Florida.

STRAP NO.: 08-44-22-01-0000B.0080

FINDINGS OF
FACT: The documentation provided with the application shows that the current owner acquired the parcel in March 2003, via a Corporate Warranty Deed recorded in the Public Records of Lee County in Official Records (OR) Book 3885, Page 1791. For the purpose of calculating density, the parcel comprises approximately .44 acres (19,161 square feet) of land and is zoned RS-1. The parcel is located in the Rural Future Land Use Category, which requires a minimum of 43,560 square feet per dwelling unit. For this reason, the owner must obtain a favorable administrative interpretation of the single family residence provisions

of the Lee Plan to construct a dwelling on the property. The property existed as a separate parcel in 1977, as evidenced by the Warranty Deed recorded in the Public Records of Lee County in OR Book 1181, Page 932.

The parcel is more than 7,500 square feet, and complied with the governing zoning requirements when created as a lot in prior to the Lee Plan's effective date of December 21, 1984.

The Lee Plan requires that the parcel front on a road with a graded surface of shell, marl, gravel base rock, or other compacted fill material, suitable for year-round use. The parcel must also be served by drainage swales or equivalent drainage measures. This parcel fronts on Allen Park Drive, a road that appears to have been constructed of compacted materials some time ago. Allen Park Drive is a private road that has fallen into disrepair and no longer meets Lee Plan XIII.b.B(3) standards for access.

DETERMINATION:

The property is within an unplatted subdivision and is accessed via private roads. It appears many of these roads were originally constructed of compacted materials. Access to the subject parcel is via Allen Park Drive, which appears to be a road of compacted materials that has not been adequately maintained. Due to the apparent lack of maintenance, the road no longer meets the requirements for access set forth in Lee Plan XIII.b.B(3).

If Allen Park Drive is repaired and maintained in a manner that provides sufficient access to the subject parcel, then the owner will be entitled to construct one single-family residence on the property. Sufficient access must, at minimum, be a properly compacted surface with adequate drainage. The Director of Development Services will determine whether the access, as repaired and maintained, is sufficient.

Accordingly, this parcel will meet the requirements set forth in Lee Plan Chapter XIII for a favorable administrative interpretation of the single-family residence provisions, if, and when, Allen Park Drive is improved in a manner that will provide access in compliance with Lee Plan XIII.b.B.4.a(3).

THIS DETERMINATION IS NOT A PERMIT TO BUILD A SINGLE FAMILY RESIDENCE OR TO CONSTRUCT ANY IMPROVEMENTS TO LAND, INCLUDING A ROAD.

Applications for building permits or development orders must comply with all applicable County, State, and Federal regulations as those regulations exist at the time each application is submitted.

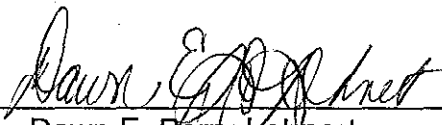

APPEAL PROCEDURE:

"An administrative interpretation may be appealed to the Board of County Commissioners by filing a written request within fifteen (15) days after the administrative interpretation has been made. In reviewing such an appeal, the Board will consider only information submitted in the administrative interpretation process and will review only whether the designated individual has properly applied, to the facts presented, the standards set forth in the Plan for such administrative interpretations. No additional evidence will be considered by the Board. The Board of County Commissioners will conduct such appellate review at a public hearing."

Based upon this quoted language, if you disagree with this administrative interpretation, you have the right to an appeal to the Board of County Commissioners. In order to exercise this right of appeal, a written Notice of Appeal must be delivered to the County Attorney's Office, at 2115 Second Street, Fort Myers, Florida, no later than 15 days from the date of this Administrative Interpretation, stating the reasons for your disagreement.

Dated this 20th day of August, 2003.

- a) LOT IS CONSISTENT WITH DENSITY REQUIREMENTS: YES NO

REAPPORTIONING LOTS: YES NO

RECOMMENDATION:

THE LOT IS NOT CONSISTENT WITH THE MINIMUM USE PROVISION BASED ON THE FOLLOWING:

This lot was recorded in 1977 prior to the adoption of the Lee Plan or zoning regulations. It conforms to the current RS-1 zoning district and exceeds the 7,500 square foot minimum required by the Single Family Provision of the Lee Plan. The lot is accessed by Allen Park Drive, an unsurfaced road with drainage swales. One of the conditions of the Single Family Provision of the Lee Plan is that the subject parcel must be accessible by a road with a graded surface of shell, marl, gravel base rock or other compacted fill material. Therefore, this lot fails to qualify for one single family residence under the Single Family Provision of the Lee Plan.

b. ADMINISTRATIVE INTERPRETATIONS OF THE PLAN

Persons or entities whose interests are directly affected by the Lee Plan have the right to an administrative interpretation of the plan as it affects their specific interest. Such an interpretation, under the procedures and standards set forth below, will remain in effect and thereafter be binding upon the county only as to the legally described property and any plan of development upon which the interpretation was based. If the plan of development is proposed to be, or is changed, through any action of any owner or developer of the property, then the administrative interpretation is no longer binding on the county. Actions that will render a previous interpretation no longer binding include any of the following: significant changes in parcel or platted lot(s) configuration; changes to land uses; decreases in the amount of open space or preserved land; increases in density or intensity of use; increases in the size or acreage of the property; or any other change that makes the plan of development less consistent with the current Lee Plan. (Note: combining lands consistent with XIII.b.B.4.b.(4) is allowed.) A determination of whether or not a plan of development has been, or would be changed sufficiently to render the previous interpretation no longer binding on the county will be made on a case by case basis by the Administrative Designee using the above-described criteria.

Administrative interpretations are intended to expedite and reduce disputes over interpretations of the Lee Plan, resolve certain map or boundary disputes, avoid unnecessary litigation, ensure consistency in plan interpretation, and provide predictability in interpreting the plan. All such administrative interpretations, once rendered, are subject to challenge under the provisions of Section 163.3215, Florida Statutes.

Anyone seeking an administrative interpretation must submit an application with requested information and will have the burden of demonstrating compliance with the standards set forth below.

A. SUBJECT MATTER OF ADMINISTRATIVE INTERPRETATIONS.

Administrative interpretations will be provided only as to the matters set forth below. In no event will administrative interpretations hereunder involve questions of the consistency of development or land use regulations with the Lee Plan. Administrative interpretations will be limited to:

1. County Attorney's Office:

- a. Whether the single-family residence provision as hereinafter defined applies and the applicant desires a written opinion for future use, or a concurrent building permit application has not been approved under 2.a. below.

2. County Administrator (or his designee):

- a. Whether the single-family residence provision as hereinafter defined applies and the applicant is also applying for a building permit. If said permit application is not approved, a separate application for the single-family residence provision may be submitted to the County Attorney's Office for final review and, if applicable, written denial.
- b. Whether an area has been (or should have been) designated Wetlands on the basis of a clear factual error. A field check will be made prior to the issuance of such an interpretation.

- c. Clarification of land use map boundaries as to a specific parcel of property.

B. STANDARDS FOR ADMINISTRATIVE INTERPRETATIONS.

Administrative interpretations of the Lee Plan will be determined under the following standards:

1. deny all economically viable use of property will be avoided;
2. Interpretations should be consistent with background data, other policies, and objectives of the plan as a whole;
3. Interpretations should, to the extent practical, be consistent with comparable prior interpretations;
4. Single-Family Residence Provision:
 - a. Applicability

Notwithstanding any other provision of this plan, any entity owning property or entering or participating in a contract for purchase agreement of property, which property is not in compliance with the density requirements of the Lee Plan, will be allowed to construct one single-family residence on said property PROVIDED THAT:

(1) Date Created:

- (a) the lot or parcel must have been created and recorded in the official Plat Books of Lee County prior to the effective date of the Lee Plan (December 21, 1984), and the configuration of said lot has not been altered; OR
- (b) a legal description of the lot or parcel was lawfully recorded in the Official Record books of the Clerk of Circuit Court prior to December 21, 1984; OR
- (c) the lot was lawfully created after December 21, 1984, and the lot area was created in compliance with the Lee Plan as it existed at that time.

(2) Minimum Lot Requirements: In addition to meeting the requirements set forth above, the lot or parcel must:

- (a) have a minimum of 4,000 square feet in area if it was created prior to June 27, 1962; OR
- (b) have a width of not less than 50 feet and an area of not less than 5,000 square feet if part of a subdivision recorded in the official Plat Books of Lee County after June 27, 1962, and prior to December 21, 1984; OR
- (c) have a minimum of 7,500 square feet in area if it was created on or after June 27, 1962, and prior to December 21, 1984, if not part of a subdivision recorded in the official Plat Books of Lee County; OR

- (d) have been in conformance with the zoning regulations in effect at the time the lot or parcel was recorded if it was created after December 21, 1984; OR
 - (e) have been approved as part of a Planned Unit Development or Planned Development.
- (3) Access and Drainage: In addition to meeting the requirements set forth above:
- (a) the road that the lot or parcel fronts on must have been constructed and the lot must be served by drainage swales or equivalent drainage measures. The road must have, at a minimum, a graded surface of shell, marl, gravel base rock, or other compacted fill material, suitable for year-round use; OR
 - (b) the lot or parcel must be located within a subdivision which was approved under Chapter 177, Florida Statutes, as long as the subdivision improvements have been made or security for their completion has been posted by the subdivider.

If the lot or parcel cannot meet the requirement of access and drainage, this requirement will not apply to the extent that it may result in an unconstitutional taking of land without due process.

- (4) Interchange, Airport Commerce, and Industrial Development land use categories: In addition to the requirements set forth above, a residential use must be the only reasonable use of the lot or parcel. The existence of a reasonable commercial or industrial use will be determined by reference to all of the applicable facts and circumstances, including, but not limited to, the nature of the surrounding uses, the adequacy of the lot size (pursuant to Chapter 34 of the Land Development Code) for commercial or industrial uses, and whether adequate infrastructure exists or can reasonably be provided to serve a commercial or industrial use at the location in question.

b. Construction Regulations

Subsequent to a property owner establishing the right to build a single-family residence on a lot through the procedures set forth in this plan, the following policies will prevail:

- (1) The residential structure must be in compliance with all applicable health, safety, and welfare regulations, as those regulations exist at the time the application for construction of the residence is submitted.
- (2) Lots or parcels which qualify for the right to construct a residence and which contain wetlands will be subject to special provisions of the Wetlands Protection Ordinance.
- (3) If two or more contiguous lots or parcels have each qualified for the right to build a single-family residence, the property owner is permitted and encouraged to reapportion properties if the result of the reappointment is a lot or lots which come closer to meeting the property development regulation standards for the zoning district in which it is located and as long as no property becomes non-conforming or increases in its non-conformity as a result of the reappointment and as long as the density will not increase.

- (4) If a lot or parcel has qualified for the right to construct a single-family residence, nothing herein will be interpreted as prohibiting the combining of said lot or parcel with other contiguous property provided the density will not increase.
- (5) If two or more contiguous properties have each qualified for the right to construct a single-family residence and if the lots or parcels are located in a zoning district which permits duplex or two-family dwellings, the property owner(s) may combine the lots to build a single duplex or two-family building in lieu of constructing two single-family residences.

c. Transferability

This right will run with the land and be available to any subsequent owner if the property which qualifies for the single-family provision is transferred in its entirety.

C. PROCEDURE FOR ADMINISTRATIVE INTERPRETATIONS.

The following procedures will apply in obtaining administrative interpretations:

1. Except as provided in 3. below, anyone seeking an administrative interpretation of the plan will submit an application, on an appropriate form provided by the county, with all requested information to the Zoning and Development Review Division (single-family residence provision) or the Planning Division (all other applications), or to their successor agencies.
2. The person authorized by Section A.1. or 2. above will review such information and issue an administrative interpretation in writing within sixty (60) days after submittal of the application and all requested information to the appropriate division. The interpretation will contain findings and reasons for the interpretation rendered.
3. If the request for a single-family residence provision or Wetlands determination is in conjunction with an application for a building permit, development order, or planned development rezoning, a separate application will not be required. The interpretation will be noted on the building permit, development order, or planned development rezoning approval, or will be contained in the reasons for denial where applicable.
4. An administrative interpretation may be appealed to the Board of County Commissioners by filing a written request within fifteen (15) days after the administrative interpretation has been made. In reviewing such an appeal, the Board will consider only information submitted in the administrative interpretation process and will review only whether the designated individual has properly applied to the facts presented and the standards set forth in the plan for such administrative interpretation. No additional evidence will be considered by the Board. The Board of County Commissioners will conduct such appellate review at a public meeting.
5. The Board of County Commissioners will consider the appeal at a hearing to be held within thirty (30) days after the date of the written request for appeal. A decision overruling the written interpretation will be in writing and will be rendered by the Board within thirty (30) days after the date of the hearing. Alternatively, the Board may adopt the administrative interpretation being appealed.

6. Where appropriate and necessary all administrative interpretations rendered by the designated persons (or upon appeal, approved by the Board of County Commissioners) will be incorporated into the Plan during the next amendment cycle. (Amended by Ordinance No. 94-30, 00-22)

c. LEGISLATIVE INTERPRETATIONS OF THE PLAN

In order to apply the plan consistently and fairly, it will be necessary from time to time to interpret provisions in the plan in a manner which insures that the legislative intent of the Board of County Commissioners which adopted the plan be understood and applied by subsequent boards, county employees, private property owners, and all other persons whose rights or work are affected by the plan. When the plan is interpreted, it should be done in accordance with generally accepted rules of statutory construction, based upon sound legal advice, and compiled in writing in a document which should be a companion to the plan itself. These goals will be accomplished by the procedures which are set forth below:

A. COMPREHENSIVE PLAN ANNOTATIONS COMMITTEE.

The Director of Community Development, the Planning Director, and the County Attorney will together be empowered to sit as the Comprehensive Plan Annotations Committee. In each instance, these persons may designate one or more subordinates to serve in their place, but only one vote may be cast by or on behalf of each of the aforementioned officials. The purpose of the committee is to make written recommendations to the Local Planning Agency in response to requests for interpretations of specific provisions in the plan. If the committee cannot recommend an interpretation unanimously, then both a majority and minority recommendation will be made to the Local Planning Agency. Similarly, if the committee cannot reach a majority position with respect to an interpretation, then each official will submit a separate recommendation to the Local Planning Agency. In accomplishing its work, the committee will operate as follows:

1. Organization

The committee will meet regularly at such times and places as it may choose. Its meetings will be either private or open to the public, or a combination thereof, as the committee chooses. The committee will have total discretion in this matter. No public notices of its meetings will be required. It may invite to its meetings such persons as it believes will best assist it in its work. It is intended that the committee will function in an informal workshop atmosphere, with emphasis to be placed on the timely production of concise, written recommendations to the Local Planning Agency in response to requests for interpretations of specific provisions in the plan. The County Attorney will be responsible for reducing the recommendations of the committee in writing, unless he is in the minority, in which case the Planning Director will be responsible for reducing the majority recommendation to writing. In every case, the Planning Director will be responsible for delivering the recommendations to the Local Planning Agency on a timely basis as part of the published agenda of the Local Planning Agency.

2. Requests for Interpretations

Requests for interpretations will be placed before the Comprehensive Plan Annotations Committee by any one of its three members in response to a question raised by the Board of County Commissioners, collectively or by any one commissioner, by any member of the county
