MEMORANDUM
from
NATURAL RESOURCES DIVISION

To: Janet Sheehan Date: March 4, 2004
Re: Workboat Purchase From: 
Steve Boutelle

The Natural Resources Division – Marine Program has been seeking a replacement workboat over the past two years. Despite the considerable assistance we had from your staff, you may recall the difficulty we had in trying to define a bid package that provided the product we needed within our budgetary constraints. Ultimately those efforts were unsuccessful.

Recent research has located a vessel which we believe meets both our needs and our budget. The William E. Munson Company of Edmonds, Washington has built several vessels for governmental agencies and has a current GSA Contract. We have contacted the vendor and they are willing to sell a vessel to Lee County in accordance with their GSA terms. We are requesting your assistance in completing the procurement of the vessel, including the necessary engines and accessories.

Attached you will find the necessary supporting documentation, including the following:

1. Purchase Summary Table including
 - a. Vessel
 - i. Copy of GSA Contract GS-07F-0442M
 - ii. Quote from Munson Company including schematics
 - b. Outboard Engines
 - i. Fax from Mercury Government Sales for twin counter rotating 150HP Optimax Saltwater 25" shaft engines. (Note: this fax requests the prices be confirmed against state contract pricing; contract 120-440-03-1.)
 - c. Engine Installation
 - i. Quote from Scotties Canvas & Marine Outfitters for parts and labor to install engines.
 - d. Trailer
 - i. Quote from JDCI Enterprises – Boatmaster
 - e. Incidentals (not to exceed \$2000)
 - i. Port Supply pricing for sample required electronics
 - ii. Estimates of cost for batteries and required safety equipment

You will note on the summary table that we estimate a total cost of \$80,000 based on the information supplied to date. We understand that this requires approval by the

Board of County Commissioners and that you will prepare the Blue Sheet. Please let me know how I can assist you with this.

Funds are available in the CIP from a grant secured through the West Coast Inland Navigation District.

20309630100 – W-County Work Boat FY04 - \$80,000.

Additional funds are available if necessary.

20307930100 – W-Navigation Improve FY03 – as needed.
