7. BACKGROUND:

On July 1, 2003, the Lee County Board of Commissioners approved Resolution 03-07-08, Bluesheet No. 20030669, declaring a limited, temporary, emergency due to the acquisition of the Gulf Utilities System (GES) in South Fort Myers for the purposes of allowing the County to expedite the procurement of vendors and materials needed for certain immediate improvements needed to the water and wastewater system in the public's interest and the customers' convenience.

On May 11, 2004, the Lee County Board of Commissioners approved the amendment of Lee County Resolution No. 03-07-08, Blue Sheet No. 20040441, adding certain additional Lee County Utilities projects and extending the term of the Resolution to December 31, 2004.

Therefore, Lee County Utilities proceeded with the purchase of 13 Control Panels from the lowest bidder, Digital Control Corporation, for the newly acquired GES lift stations in the amount of \$104,122.00.

These control panels were needed to upgrade these lift stations. If they do not work properly, the control panels could malfunction and cause the lift station to back-up or overflow which is a safety/health hazard to the citizens of Lee County.

Funds were available in Account No. 20720748720.506310.
