

**Lee County Board Of County Commissioners  
Agenda Item Summary**

**Blue Sheet No. 20050796**

**1. ACTION REQUESTED/PURPOSE:** Approve award of the following projects: EX050525, the purchase of Herman Miller furniture at the Florida State Contract price of \$128,606.15 from OP South Florida DBA Herman Miller Workplace; EX050524 the purchase and installation of carpet tiles from Shaw Industries, Inc at the price of \$53,243.31 (General Services Administration (GSA) contract price of \$47,649.31 and non-contract price of \$7,594.00) and IT050534 for the purchase and installation of voice and data cable from Fiber Solutions for the price of \$44,488.20. Also approve the expenditure of a not-to-exceed amount of \$23,000.00 for such incidentals as, but not limited to, miscellaneous furniture, carpeting, overnight shipping, moving, dismantling, relocation, internal signage, additional voice and data cable etc. No additional funds are requested, as the costs are already budgeted this fiscal year. Grand Total \$249,337.66.

**2. WHAT ACTION ACCOMPLISHES:** Provides workstations and a more efficient work flow to accommodate additional staff hired over the last year for the record permitting activity, and replaces the 8+ year old carpet in this high traffic area.

**3. MANAGEMENT RECOMMENDATION:** Approve as stated.

**9. Background:** The explosive permit growth requires a total reconfiguration of the existing first floor to accommodate the additional staff that has been hired, including many of the 27 positions approved by the Board on March 1, 2005. The front counter will be expanded, existing workstations will be moved to accommodate new workstations, and additional cabling is needed for voice and data services. Also, the reconfiguration will be planned in conjunction with the planned replacement of the carpet, which is over eight years old.

Funding is available through the following acct strings:

For modular furniture, cabling and incidentals:

Subject: Bluesheet request

Please prepare a bluesheet on behalf of Community Development for the reconfiguration of the first floor of the Community Development/Public Works Center. This project involves reconfiguring the first floor to expand the front counter, accommodate additional staff, as well as the scheduled replacement of carpeting. Please target a BoCC agenda date in June, before the July meeting cancellations. If you have any questions, please contact Peter Cloutier at 479-8512.

Action Requested: Approve purchase awards for the Reconfiguration Project for the first floor of the Community Development/Public Works Center, to include: State Contract purchase of office furniture, to include design and installation, of \$128,606.15; State Contract purchase of carpeting, to include installation, of \$53,243.31; ~~\$44,982.66~~ for informal quote on cabling services; and 10% for incidentals, to include but not limited to: internal signage, internal counter additions, etc. Total project cost is estimated to be \$ ~~249,337.66~~ <sup>44,982.66</sup>. No additional funds are requested, as the costs are already budgeted this Fiscal Year.

What Action Accomplishes: Provides workstations and a more efficient work flow to accommodate additional staff hired over the last year for the record permitting activity, and replaces the 8+ year old carpet in this high-traffic area.

Management Recommendation: Approve

Background: The explosive permit growth requires a total reconfiguration of the existing first floor to accommodate the additional staff that has been hired, including many of the 27 positions approved by the Board on 3/1/05. The front counter will be expanded, existing workstations will be moved to accommodate new workstations, and additional cabling is needed for data services. Also, the reconfiguration will be planned in conjunction with the planned replacement of the carpet, which is over 8 years old.

RE: Black Box Proposal No. #11638-1  
**Lee County Public Works 1<sup>st</sup> Floor Re-work**

Dear Ms. Ciccarelli:

Black Box Network Services (hereinafter referred to as "Black Box") is pleased to submit our proposal for the above referenced project.

**Black Box Network Services** proposes the following:

**Summary:** Black Box Network Services will provide materials and necessary labor to install twenty-one (21) communication outlets, each outlet consisting of two voice and two data cables, one (1) communication outlet consisting of four voice and four data, ten (10) communication outlets consisting of two voice and four data. The workstation outlets will be terminated with Siemon flush mount faceplates with beige RJ-45 Cat 6 inserts utilized for voice and red RJ-45 Cat 6 inserts utilized for data and voice. All data cable will be terminated to new/existing Siemon Category 6 patch panel and all voice cabling will be terminated to a new/existing voice panel. To provide for data distribution Siemon Category 6 patch panels all panels and jacks will be terminated to EIA/TIA568B standard. The installation will be inclusive of all stations identified on customer provided blue prints. All stations will be installed to Black Box Network Services Structured cabling specifications as well as BICSI guidelines.

**IDF/TC (Intermediate Distribution Frame/ Telecommunications Closet)**

For the purpose of this project the equipment rooms, as identified on the supplied drawings will be utilized. The existing data patch panels and voice panels will be utilized. All cabling will be labeled in a numeric fashion or as directed by the customer.

**Horizontal Cabling:**

The installed cable will be BerkTek LanMark 1000, 4-pair, Category 6 Plenum with a white jacket to conform to the original installation. All cabling will be routed through the cable management into the airspace above the false drop tile ceiling and travel in a rectilinear fashion within the existing hallway to the office re-work area. The cable will be supported every 48" to 60 " within J-hooks independently suspended from the structural steel. All cabling will be routed to the appropriate location and routed down within the wall at each outlet location.

**Station Termination:**

At each designated workstation outlet there will be installed a Siemon flush mount single gang four position faceplate. The cable will be terminated to RJ-45 Category 6 modules, orange for data and beige for voice. All workstations will be labeled as identified by the customer to correspond to the original labeling format. All faceplates will be labeled with a brother P-touch label on the faceplate as well as on the cable behind the faceplate.

**Station Testing & As-Built Drawings:**

All cabling will be tested to Black Box Network Services quality standard as well as to EIA/TIA Level III standards for structured cabling. Hard/soft copy test results will be provided to the customer. Additionally upon receipt of an electronic image of the blueprints of the facility Black Box Network Services will provide to Atos Origin "As-Built" identifying station number and overall cable pathway.

**Notes:**

1. The patch cables and station cable will be provided by the customer.
2. Any work requested outside of the scope of work will be identified and priced separately to the customer on a "Change Order" and executed only after approval has been made by the customer in writing.
3. To provide for future 116 Category 6 Plenum cables will be installed and terminated at the patch panel only.
