9. Background:

On April 12, 2005, the Board approved Blue Sheet No. 20050423 awarding the purchase of a bypass condenser to Thermal Engineering International (TEI). It was later discovered that a final 'materials' price adjustment submitted by TEI was not included in the final tabulation sheet and was not reflected in the pricing provided to the Board.

The addition of this price adjustment, \$10,500.00, still maintains TEI as the low-priced proposer meeting all specification requirements.

		8. Request Initiated: Lindsey J Sampson Commissioner Department: Public Works Division: Solid Waste By: S/Lindsey J. Sampson

9. Background:

Sealed quotes were received by the County's design engineer, Burns & Roe, on behalf of the Solid Waste Division on February 3, 2005. On that date three (3) responses were received. On March 3, 2005, the two low proposers were asked to submit alternate pricing considering revised 'fouling factors' included in the specifications. After review, recommendation was made to award to the low-priced proposer meeting all specification requirements. Backup documentation refers to a price of \$242,500.00 that includes \$6,000.00 for the option of a performance bond. The Solid Waste Division does not want to make use of this option.
