**9. Background:**

On October 19, 2004, the Board appointed, Solid Waste Collection Advisory Committee recommended minor changes to the specifications for solid waste and recycling collections. These changes were incorporated into the new franchise collection and hauling agreements as awarded in March 2005. Changes included are the curbside residential and multi-family collection of outdated and/or non-working electronic devices, providing an incentive by allowing a lower fixed collection rate for businesses to recycle, and changes to the franchise boundaries.

The proposed Ordinance will update, consolidate and repeal earlier versions of the Lee County Solid Waste Ordinances related to garbage and solid waste collection. The recommended changes suggested by the Solid Waste Collection Advisory Committee have been incorporated into the proposed Ordinance and included into the new franchise collection and hauling contracts that were previously approved by the Board.
