STRAP No. 36-47-25-B2-00600.0380

Purchase Details:

Binding Offer Amount: \$2,000

In order to expedite acquisition efforts, staff recommends Board make a binding offer in the amount of \$2,000, and commence Eminent Domain procedures.

Appraisal Information:

Company: Maxwell & Hendry Valuation Services, Inc., by W. Michael Maxwell, MAI, SRA

Appraised Value: \$1,517

Date of Appraisal: November 21, 2005

<u>Staff Recommendation</u>: Staff is of the opinion that the purchase price increase of \$483 may secure an agreement for the acquisition of the property without the full expense of an Eminent Domain action, and can be justified considering costs associated with condemnation proceedings estimated between \$1,000 - \$2,500, excluding land value increase and attorney fees. Staff recommends the Board approve the Action Requested.

### Previous Transfers

There have been no valid transfers of the comparable sales in the past three years.

### Sales Comparison Comments

Sales 1 & 2 are from Helfenstein Estates located to the north of the subject. Sale 3 is from Bonita Farms located to the west of the subject. Sales 4-6 are from Pinecrest Haven located to the east of the subject. These sales are most similar to our subject in zoning and single family use.

However, the subject is, in the pre-take condition, located on a busy, two lane thoroughfare, whereas Comparables 1-3 are located on quiet, two lane residential streets and Comparables 4-6 back up to Interstale 75, a four lane highway. We have completed a Busy Road Proximity Study, located in the Data Book, on major thoroughfares in Lee County. The study revealed a diminution range of 12% to 23%. Our study roads were much busier than East Terry Street. We estimate the diminution for this traffic level would be 10% to Sales 1-3 and an increase of 10% to sales 4-6.

After adjusting for size and proximity to busy roads, we conclude a land value of \$6.30 per square foot, or \$70,875, rounded to \$71,000.

### Analysis of the Taking

### Description of the Take

There is one taking associated with this parcel, a slope easement taking.

The slope easement take area is a rectangular parcel, that varies in depth, along the north border of the property. The total take area is 963 square feet, as provided by the survey.

### Value of the Whole before Take

As already concluded, the value of the land is \$71,000. In addition, we must also consider the value of the improvements that will be affected by the taking. We did not observe any affected improvements in the take areas. Therefore, the Value of the Whole before Take is \$71,000.

### Value of the Part Taken

Slope Easement Take (Less Than Fee) - As the Take will be an easement, the owner will lose a portion of their fee simple property rights. In cases similar to this, acquisition settlements and paired sales analysis for reduced property rights have been approximately 25% to 50 % of the fee simple value of the land. The taking is a 1'.3' slope and the impact to the property is minimal. Also, the take area is mostly contained in the areas set aside for drainage and setbacks. As a result it is our opinion that the appropriate loss for the easement is 25% of the fee simple value. In the conclusion of the Land Value, we utilized \$6.30 per square foot. We will then apply this to the area of the Take as follows:

	963	(Take Area - Square Feet)	
X \$	6.30	(Per Square Foot Value)	
\$	6,067	(Value of the Part Taken - Fee Simple)	
X	25%	(Loss of Fee Simple Rights)	
-\$	1.517	(Value of the Part Taken - Less Than Fee)

### Remainder Value as Part of Whole

The Remainder Value as Part of Whole is the difference between the Value of the Whole before Take and the Value of the Part Taken.

> \$ 71,000 (Value of the Whole before Take) -\$ 1,517 (Value of the Part Taken) \$ 69,483 (Remainder Value as Part of Whole)

### Remainder Value after Take

As this taking is substantially contained in the setback area required by zoning, this take does not adversely affect the remaining property, land or improvements. Therefore the Remainder Value after Take is the same as the Remainder Value as Part of Whole. This can be shown mathematically, as follows. The slight difference between \$69,483 and \$69,358 is due to rounding errors.

> 10,287 @ \$6.30 psf 963 @ \$6.30 psf = \$64,808 (Remainder Value - Fee Simple) = **\$ 4,550** @ \$6.30 psf X 75% (Remainder Value - Less Than Fee) (Remainder Value - Total)

### Severance Damages

As the proposed taking is contained in areas required for setbacks and drainage and is a minimal 1:3' slope, it is our opinion that the taking will not adversely affect the improvements. Therefore, there are no Severance Damages.

### Amount Due Owner

The Amount Due Owner is the Value of Part Taken plus any Severance Damages incurred, as follows:

(Value of the Part Taken) (Severance Damages) (Amount Due Owner)
