I have been informed by the USPS that they require the roads traveled by delivery personnel shall be kept in passable condition for motor vehicles, under ordinary weather conditions. Poorly maintained roads sometimes make it necessary for the Postal Service to rearrange a route's line on travel to avoid hazards. These changes in line of travel can cause unnecessary and annoying delays in my mail delivery. Local authorities involved in keeping roads in proper repair should act promptly so that changes in delivery service do not become necessary.

Please address the following issues:

Location: 42ND ST WEST

The roads mentioned above have been reported as being poorly maintained and present a hazard. Please give this matter timely attention and advise me within 30 days when the necessary repairs will be made.

Thank you,
