

Dental.com Frequently Asked Question for Aetna Dental® Members

What does the Dental.com Smart Scan do and why should I use it?

Smart Scan is a new and no-cost screening service available to Aetna Dental® plan members which allows you to better understand the overall health of your mouth and teeth.

Receiving a live status of your oral health can help identify potential problem areas to be handled before it becomes serious, gives you a peace of mind, and provides you with tips and product recommendations to maintain your good oral health or to treat an identified condition.

What happens after I upload my photos using the Smart Scan?

- I. Once the photos are uploaded to Smart Scan via Dental.com, the following occurs:
- II. Each photo is examined by Artificial Intelligence (AI) to determine potential cavities or areas of concern
- III. An Aetna Dental network dentist reviews the pictures and the AI data
- IV. A final score is determined and posted on your dashboard like a grade on a report card – score 1 through 100 (100 being the best)
- V. The AI software will identify problem areas and specific conditions to be addressed (if any exist)
- VI. Product suggestions to treat your condition(s) and/or maintain good oral hygiene will be recommended and tailored based on your results
- VII. Detailed suggestions on how to improve or maintain your oral health and hygiene will also be made available
- VIII. If you would like to speak directly with a dentist to review the results, you can do so by selecting to “See a Dentist Now” from your member dashboard

Who is eligible to use the Dental.com services?

Members with a PPO plan can use the Smart Scan, see a provider, and get a second opinion and will be covered under their plan. Members with a DMO plan can use the Smart Scan at no cost but will need to pay out of pocket for a virtual visit and second opinion.

How do I use the Smart Scan tool?

Please watch this short video to learn how to use Smart Scan for your oral health report: [Smart Scan Video](#). The entire Smart Scan process takes less than 5 minutes.
