3. QUESTIONS/ANSWERS

1.	Can Lee County clarify why the Right of Way Mapping FDOT certification is required when it does not apply to the scope of work? Was this an error or does this remain as a certification for the project? If an error was made, will Lee county provide an updated Form 15?
Answer	Please see Attachment 1 – Addendum 2 – Revised Form #15 – Minimum Qualifications Requirements. Work Class 8.4. Right of Way Mapping has been removed as a qualification.

2.	This morning we saw Addendum 1 which added a form which is requesting certification from FDOT as to prequalifications. Pursuant to our FDOT Prequalification letter, sharing of the indirect costs is prohibited. Therefore, we would like to propose that we provide the verification printout from FDOT’s consultant qualification website.
Answer	The qualification certification from the Florida Department of Transportation (FDOT) does not request any indirect cost or financial information from the Consultant/Sub-Consultant. Per Revised Form #15 – Minimum Qualification Requirements, the COUNTY is requesting a copy of either the Prime Consultant or Sub-Consultants Certificate of Qualification letter provided by FDOT showing proof of being certified in the work classes described in Criteria 1.

3.	Can Lee County address how half pages will be counted in regards to page count? For instance can offerors have a half page of content under Tab 1 and then other half page of content under a different Tab; will these two half pages be counted as half pages (making 1 page) or will they be counted as 1 page each?
Answer	No, they will not be counted as half pages. The content for two separate tabs should not be combined on one page.
