In the event a tie still exists the proposer with the highest number of 2nd place rankings shall be the first ranked proposer. Should a tie still remain the method used above will continue with each ranking level, 3rd, then 4th, then 5th, etc. rank, will be counted until the tie is broken.
 - 25.1.2. Step 2: At the conclusion of step 1, if all is equal, the proposer having a drug-free work place program, shall be deemed the first ranked proposer.
 - 25.1.3. Step 3: In the event the tie exists then the highest ranked proposer from the first evaluation committee meeting, in which point values were applied, will win the award. One being the highest.

 - 27.3.1. The proposer acted in good faith in submitting the proposal,
 - 27.3.2. The mistake in proposal preparation that was of such magnitude that to enforce compliance by the proposer would cause a severe hardship on the proposer,

2. INTRODUCTION

Lee County is located in southwestern Florida, immediately to the south of Charlotte County and north of Collier County. In 2022 the population was 822,453, making it the 8th most populous county in the state. Hendry County is located east of Lee County, with a population of 41,339.

The Facility is on South Church Road, approximately 3.2 miles north of State Road 82, in Hendry County, Florida. The site entrance is at the intersection of South Church Road and Church Roads. To enter the site, turn north off State Road 82 onto South Church Road and proceed approximately 3.2 miles. The facility gate is located at Latitude 26°35'00"N by Longitude 81°31'15" W.

The Lee/Hendry Regional Solid Waste Disposal Facility (Facility) is owned by Lee County and was developed pursuant to a 1991 Interlocal Agreement with Hendry County for solid waste management and disposal. Landfilling operations at the Facility have been continuously managed under an Operating Agreement with Waste Management Inc. of Florida since February 1994. The Facility was developed in phases to include the three Landfill Operating Areas, a Compost Facility, a Class I Deep Injection Well, and office and maintenance facilities.

Franchise haulers and residents from both Lee and Hendry Counties dispose of waste at the Facility and a 5-year tonnage look back by landfill and material type is provided in Attachment 4 to this solicitation as well as population projections for both Lee and Hendry Counties. Tonnages received at the Facility can fluctuate significantly depending on the operation of the Lee County Resource Recovery Facility (RRF), located at 10500 Buckingham Road in Ft. Myers.

The Lee County RRF is the primary method of disposal for waste, with a capacity of approximately 628,000 tons per year. During planned and unplanned outages or when incoming waste exceeds capacity, waste is diverted to the Lee Hendry Landfill. This leads to significant and rapid fluctuation in incoming waste rates at the Facility, as shown in the tonnage look back. Manpower and equipment usage for a 5-year look-back is provided as part of the current vendor's invoices which are provided in Attachment 3.

In Hendry County waste is direct hauled to the Facility by franchise haulers and residents as well as being transferred to the Lee/Hendry Landfill from transfer stations located in LaBelle and Clewiston in Hendry County. Tonnages from Hendry County are included in the tonnage look back.

3. BACKGROUND

The three Landfill Operations Areas were initially permitted in 1993 with FDEP and the South Florida Water Management District in 1994. The Facility and stormwater management system was planned for a total of 254.3 acres of disposal between the three Landfill Disposal Areas as follows:

The Class I MSW Landfill consists of approximately 96 acres of double-lined system with leachate collection and removal system. The initial Phase 1 is approximately 39 acres (Cells 1-4), was constructed in 1994/1995, and began operation in September 2002. Class I MSW Landfill Phase 2 (Cells 5, 7-10) was constructed 2004/2005 and began operation in January 2005. Phase 3 (Cells 11 & 12) is approximately 14.7 acres and was constructed 2022/2023, with operations having begun early in 2024 and include an area designated for non-MSW only. Future Phases Cells 13-18 are approximately 36.4 acres and will be constructed in the future in sequential order.

The Class III Landfill consists of approximately 25 acres of single-lined system with leachate collection. The Class III Landfill was constructed in 2007 and began accepting waste in 2009. A lateral expansion to the Class III Landfill is under construction, which will add approximately 10 acres of single-lined system with leachate collection and add landfill gas collection and control to the Class III Landfill.

The Class I Ash Monofill is planned for a total of 36.8 acres of double lined system with leachate collection. Phase 1 of the Class I Ash Monofill (Cells 1 – 2) was constructed in 2007 and began accepting waste in 2008. Phase 2 of the Class I Ash Monofill was completed in 2014.

Phase 1, totaling approximately 16.2 acres for the Ash Monofill, began accepting waste in August 2008. A subsequent permit was granted for Phase 2 (Cells 3 – 5) - an additional 20.6 acres in 2013.

4. LOCAL AGREEMENTS

There are two local Agreements that directly impact operations and development of the Facility – the 1991 Interlocal Agreement with Hendry County and the 1993 Adjacent Property Owner Agreement, summarized here and included in Attachment 2.

The Hendry County 1991 Interlocal Agreement limits the disposal of solid waste at the Facility to Lee and Hendry counties only. Two transfer stations located in Hendry County and operated by Lee County collect waste for disposal at Lee/Hendry Landfill. The LaBelle Transfer station is located at 1280 Forestry Division Rd, LaBelle, FL 33935 and the Clewiston Transfer station is located at 1357 Olympia St, Clewiston, FL 33440. WACS ID 74908. The Interlocal Agreement also stipulates that Hendry County will send all MSW from Hendry County to the Facility.

The Adjacent Property Owners Agreement of 1993 was between Lee County and three adjacent property owners - A. Duda & Sons, Inc; Cooperative Producers, Inc; and Turner Foods Corporation (currently King Ranch), collectively referred to as “Partners,” in June 1993 to facilitate the development and permitting of the Lee/Hendry Landfill. The Agreement includes operational and siting restrictions that must be followed by Lee County and its contractors.

The Landfill Operations Areas, material types, height, and horizontal footprints are restricted in accordance with the terms and conditions of the Partners agreement. Soil borrow areas are limited and must be used in the order stipulated in the Agreement. Additional water quality monitoring at the Facility is specified and best management practices are used to manage and retain stormwater on the site.

A representative for the Partners may not be denied access to the landfill if they have provided 48 hours written notice of an inspection. Good faith efforts will be made to promptly provide a Lee County representative to accompany the representative at all times. Lee County provides the Partners with notice of any regulatory inspections, permit applications, permits, or correspondence with regulatory agencies related to the Landfill.

5. COUNTY OPERATIONS

5.1. In addition to the Landfill Operations Areas, the Facility includes the following County operated and maintained operations:
