The description of services intended for purchase from a sole source is posted in accordance with section 287.057(3)(c), Florida Statutes and will be posted for a minimum of 15 business days.

Commodity or Service Required:

Purchase of BECS, Yaskawa, and ChlorKing Equipment, Maintenance and Repairs

Description:

Lee County Parks and Recreation is seeking to execute a sole source for diagnostic, support, service, repair, parts, and replacement of BECS controllers, Yaskawa variable frequency drives (VFD), ChlorKing NEXGEN on-site salt generators and SENTRY ultraviolet systems to maintain Lee County Parks and Recreation pools. The salt generator system maintains the correct chlorine levels in the pool thus saving the County money by using less liquid chlorine. The BECS controllers are compatible with the ChlorKing and Yaskawa equipment currently in use and are designed for commercial pool applications. Lee County Parks and Recreation has 12 BECS controllers, 5 Yaskawa VFDs, and 5 ChlorKing NEXGEN salt generators at aquatic facilities throughout the County.

Intended Sole Source:

Commercial Energy Specialists, Inc.

Justification for Sole Source Acquisition:

Commercial Energy Specialists, Inc. is the sole source for BECS Technology in Florida and the Caribbean and the exclusive retailer for the sale and service of Yaskawa and ChlorKing equipment in Florida. The ChlorKing 25.0 lbs. NEXGEN on-site salt generator has been proven to keep up with the demand of Lee County commercial pools.

Recommended Procurement Approach:

For the reason(s) stated above, Lee County Procurement Management intends to utilize the Sole Source Procurement method to purchase from Commercial Energy Specialists, Inc. for supplying the above.

Respond to:

If your firm feels they have the ability to supply the above, please contact Jennifer Brewer-Dano, Lee County Procurement Management at jbrewer-dano@leegov.com for future purchase review.
