The description of services intended for purchase from a sole source is posted in accordance with section 287.057(3)(c), Florida Statutes and will be posted for a minimum of 15 business days.

Commodity or Service Required:

Purchase of Irrigation Pump Systems, Equipment, Parts, Repairs, and Maintenance

Description:

Lee County Facilities and Construction Management is seeking to execute a sole source for maintenance and repair of existing pump stations providing proper irrigation to ballfields, grounds, and parks. Service includes internet data service, software updates, controller upgrades, filter systems, as well as replacement of necessary components of the system. "Flowguard Smart" software controls the operation of pump stations remotely.

Intended Sole Source:

Hoover Pumping Systems Corporation

Justification for Sole Source Acquisition:

Hoover Pumping Systems Corporation is the only vendor that can support the software, supply maintenance services and replacement components for the existing pump stations. The software provides real-time visibility over the pump stations and irrigation zones, it is designed to provide optimal water supplies, control lake depths, send trouble alerts and generate water use reports that are required by South Florida Water Management District. There is no other product on the market that is compatible with "FlowGuard Smart" software and no other vendors able to provide maintenance and replacement components for the existing irrigation pump stations.

Recommended Procurement Approach:

For the reason(s) stated above, Lee County Procurement Management intends to utilize the Sole Source Procurement method to purchase from Hoover Pumping Systems Corporation for supplying the above.

Respond to:

If your firm feels they have the ability to supply the above, please contact Jennifer Brewer-Dano, Lee County Procurement Management at jbrewer-dano@leegov.com for future purchase review.
