The description of services intended for purchase from a single source is posted in accordance with section 3.9, Procurement Ordinance 23-21 and will be posted for a minimum of 15 business days.

### **Commodity or Service Required:**

Rotork Controls, Inc. and Flexim Parts, Repairs, and Services

### **Description:**

Lee County Utilities is seeking to execute a single source for OEM replacement parts, maintenance, repair services, field services and technical support for Rotork Controls manufactured valves and Flexim manufactured portable and permanent ultrasonic flow meters. Lee County Utilities has standardized and uses only Rotork Actuators for approximately 120 valves on the Ion Exchange System at Green Meadows WTP as well as with other treatment systems throughout the Utility. These valves and associated actuators open and close to allow proper control and flow of water and brine for the treatment processes in the plants. To continue to maintain and repair this equipment, and utilize remaining warranty, it is necessary to continue with the authorized vendor who will supply our Rotork and Flexim equipment and maintain service.

### **Intended Single Source:**

Fluid Controls Specialties, Inc.

### **Justification for Single Source Acquisition:**

Fluid Control Specialties, Inc. is the sole and exclusive Municipal representative for Rotork actuators within Greater Florida and is the only provider in Florida for Flexim products.

### **Recommended Procurement Approach:**

For the reason(s) stated above, Lee County Procurement Management intends to utilize the Single Source Procurement method to purchase from Fluid Controls Specialties, Inc. for supplying the above.

### **Respond to:**

If your firm feels they have the ability to supply the above, please contact Jennifer Brewer-Dano, Lee County Procurement Management at [jbrewer-dano@leegov.com](mailto:jbrewer-dano@leegov.com) for review.
