The description of services intended for purchase from a sole source is posted in accordance with section 3.9, Procurement Ordinance 23-21 and will be posted for a minimum of 15 business days.

Commodity or Service Required:

Purchase of Materials and Installation to modify one existing Extended Aeration FETP (Field Erected Treatment Plant) into a 4-stage Biological Nutrient Removal FETP

Description:

Lee County Utilities is seeking to execute a single source for a Reuse Tank Modification to an Advanced Treatment Plant. The existing plant has a 29.25' Clarifier Diameter and an 89.25' Outer Wall Diameter and is an existing Davco Plant. This includes demolition/installation and equipment/materials.

Intended Single Source:

Evoqua Water Technologies LLC

Justification for Sole Source Acquisition:

Evoqua Water Technologies LLC is the sole manufacturer of OEM equipment, replacement parts, retrofits, rehabs and field services for Davco, Envirex, JetTech SBR and RJ Environmental Vapor Phase Odor Control companies, and the only company that can provide the standard equipment from those companies needed to make the modifications to the Reuse Tank.

Recommended Procurement Approach:

For the reason(s) stated above, Lee County Procurement Management intends to utilize the Single Source Procurement method to purchase from Evoqua Water Technologies LLC for supplying and installing the above.

Respond to:

If your firm feels they have the ability to supply the above, please contact Daniel Goggin, Lee County Procurement Management at dgoggin@leegov.com for review.
