The description of services intended for purchase from a single source is posted in accordance with section 3.9, Procurement Ordinance 23-21 and will be posted for a minimum of 15 business days.

Commodity or Service Required:
Ambulance Cot, Retention Systems, Supplies, Mechanical CPR and Maintenance

Description:
Lee County Public Safety is seeking to execute a single source for ambulance cot & retention systems, mechanical CPR equipment & the maintenance to support these devices. The cots are used to move patients to and from the ambulance and has storage for equipment with a hydraulic pump operation feature to prevent Injury to employees. The retention system is necessary to properly secure the cot in the ambulance and must meet GSA Specification KKK-A-1822.

Intended Single Source:
Stryker Corporation

Justification for Single Source Acquisition:
Lee County EMS is currently a customer of Styker. Lee County is required by our accreditation body to perform annual maintenance on the ambulance cots and retention systems, a service which Styker provides after the completion of the manufacturer warranty on the product. It would be cost prohibitive to source other ambulance cots and retention systems. Doing so would require each ambulance in the fleet to undergo significant retro fit in order to accomplish the transition. Stryker Corporation is the sole distributor of the products.

Recommended Procurement Approach:
For the reason(s) stated above, Lee County Procurement Management intends to utilize the Single Source Procurement method to purchase from Stryker Corporation for supplying the above.

Respond to:
If your firm feels they have the ability to supply the above, please contact Jennifer Brewer-Dano, Lee County Procurement Management at jbrewer-dano@leegov.com for review.
