The description of services intended for purchase from a single source is posted in accordance with section 3.9, Procurement Ordinance 23-21, and will be posted for a minimum of 15 business days.

Commodity or Service Required:

Purchase of TomCO2 Systems, Installation, Equipment, Parts, Maintenance, and Inspection

Description:

Lee County Utilities seeks to execute a single-source procurement for installation, equipment, parts, maintenance, and inspections by TOMCO2 Systems Company. This installation, equipment, parts, cleaning, repairs, preventative maintenance, and inspections for CO2 refrigeration systems at the Corkscrew Water Treatment Plant and North Lee County Water Treatment Plant are integral to controlling water pH, maintaining water quality, and meeting regulatory standards.

Intended Single Source:

TOMCO2 SYSTEMS COMPANY

Justification for Single Source Acquisition:

TomCO2 Systems Company is the sole manufacturer of TomCO2 Systems equipment and the sole provider of TomCO2 repair parts and TomCO2 service. TomCO2 Systems has installed a patented (pressurized solution feed) PSF system used to control the pH level of water in the treatment process and possess specialized expertise in the CO2 systems specifically designed for these water treatment plants.

Recommended Procurement Approach:

For the reason(s) stated above, Lee County Procurement Management intends to utilize the single-source procurement method to purchase from TomCO2 Systems Company for supplying the above.

Respond to:

If your firm feels they have the ability to supply the above, please contact Kevin Walker, Lee County Procurement Management, at KWalker2@leegov.com for review.
